

Reference List

Validated Resources

A compact, clickable reference list for NEXUS EOC exercises. The resource title is the link. Use these sources to support scenario framing, doctrine checks, and after-action discussion.

How to use this list

Click the resource title to open the validated source. During live play, use references as support material - not as a script. NEXUS EOC still responds to player decisions, trade-offs, and consequences.

General resources

[FEMA National Preparedness Frameworks](#)

The five frameworks covering Prevention, Protection, Mitigation, Response, and Recovery. Foundation of all federal EM doctrine.

[FEMA NIMS](#)

National Incident Management System — the standardized approach to incident management across all levels of government.

[FEMA Emergency Management Institute](#)

FEMA's primary training institution. Online and residential courses covering ICS, NIMS, EOC operations, and all hazards.

[FEMA EOC NIMS Toolkit](#)

Guidance and tools for applying NIMS standards specifically to Emergency Operations Center activation and operations.

[ICS Organizational Structure and Elements](#)

FEMA reference document on ICS structure, positions, and span of control. Essential quick reference during play.

[FEMA Resilience Hub — Response & Recovery](#)

FEMA's hub for response and recovery doctrine, tools, case studies, and adaptive capacity resources.

[FEMA Geospatial Resource Center](#)

FEMA's GIS and mapping hub. Disaster maps, geospatial data, and situational awareness tools for all hazards.

Scenario References

Clickable links organized by scenario type. The resource title is the link to the validated source.

HURRICANE LANDFALL

[FEMA Federal Evacuation Support Annex 2025](#)

Updated federal guidance on evacuation support operations and coordination.

[NHC Hurricane Preparedness](#)

National Hurricane Center preparedness resources including storm surge, wind, and track guidance.

[ESF-13 Public Safety Annex](#)

Federal annex covering law enforcement, facility security, and public safety coordination.

[2017 Hurricane Season AAR](#)

FEMA after-action report covering Harvey, Irma, and Maria — key lessons for large-scale hurricane response.

[FEMA Hurricane Response](#)

FEMA's primary hurricane risk management and response resource page.

[FEMA Resilience Hub — Hurricane](#)

Hazard-specific hurricane resources, tools, and case studies from the FEMA Resilience Hub.

[FEMA Resilience Hub — Response & Recovery](#)

Cross-cutting response and recovery doctrine applicable to all hurricane response phases.

[FEMA Geospatial Resource Center](#)

FEMA GIS hub for storm track, surge, and impact mapping resources.

MASS CASUALTY INCIDENT

[FEMA National Response Framework](#)

Core federal response doctrine covering roles, responsibilities, and coordination structures.

[CHEMM START Triage Reference](#)

Chemical Hazards Emergency Medical Management START triage protocol for adult MCI response.

[ESF-8 Public Health & Medical Annex](#)

Federal annex covering public health, medical surge, and behavioral health coordination.

[ICS Field Operations Guide](#)

USFA field guide for ICS implementation during multi-agency incident response.

[Boston Marathon Bombing AAR 2014](#)

After-action report on the 2013 Boston Marathon bombing response — benchmark MCI AAR.

[FEMA Resilience Hub — Response & Recovery](#)

Cross-cutting response and recovery doctrine applicable to mass casualty incidents.

[FEMA Geospatial Resource Center](#)

FEMA GIS hub for incident mapping and situational awareness support.

Scenario References

Clickable links organized by scenario type. The resource title is the link to the validated source.

HAZARDOUS MATERIALS RELEASE

[EPA Emergency Response](#)

EPA's primary emergency response portal covering hazmat, oil spills, and environmental incidents.

[DOT Emergency Response Guidebook](#)

DOT/PHMSA ERG — the standard field reference for first responders to hazmat incidents.

[LEPC Guidance — EPA](#)

EPA guidance on Local Emergency Planning Committee roles and hazmat community planning.

[ESF-10 Oil & Hazardous Materials](#)

Federal annex covering environmental response and hazmat containment and cleanup coordination.

[NTSB East Palestine Final Report 2024](#)

NTSB final investigation report on the 2023 East Palestine train derailment — key hazmat lessons.

[FEMA Resilience Hub — Response & Recovery](#)

Cross-cutting response and recovery doctrine applicable to hazmat incidents.

[FEMA Geospatial Resource Center](#)

FEMA GIS hub for plume modeling and hazmat impact mapping resources.

CYBER-INFRASTRUCTURE CASCADE

[CISA Critical Infrastructure](#)

CISA's primary resource for critical infrastructure security and resilience across all sectors.

[FEMA Planning Considerations for Cyber Incidents](#)

FEMA guidance on planning for cyber incidents with physical consequences — 2023 edition.

[WaterISAC Resources](#)

Water sector information sharing and analysis center — threat intelligence and guidance.

[NERC CIP Standards](#)

North American Electric Reliability Corporation Critical Infrastructure Protection standards.

[CISA Colonial Pipeline: What We Learned](#)

CISA lessons learned from the 2021 Colonial Pipeline ransomware attack.

[FEMA Resilience Hub — Response & Recovery](#)

Cross-cutting response and recovery doctrine for cyber incidents with physical consequences.

[FEMA Geospatial Resource Center](#)

FEMA GIS hub for infrastructure mapping and situational awareness.

Scenario References

Clickable links organized by scenario type. The resource title is the link to the validated source.

MAJOR EARTHQUAKE

[FEMA Earthquake Risk Program](#)

FEMA's earthquake risk management resources including mitigation and response guidance.

[USGS Earthquake Hazards Program](#)

USGS real-time earthquake data, ShakeMap, and hazard assessment tools.

[FEMA Urban Search & Rescue](#)

FEMA USAR program resources covering team deployment, operations, and coordination.

[ATC-20 Postearthquake Safety Evaluation](#)

Applied Technology Council post-earthquake building safety evaluation procedures.

[Northridge Earthquake FEMA Disaster Page](#)

FEMA disaster page for the 1994 Northridge earthquake — foundational urban earthquake response AAR.

[FEMA Resilience Hub — Earthquake](#)

Hazard-specific earthquake resources, tools, and case studies from the FEMA Resilience Hub.

[FEMA Resilience Hub — Response & Recovery](#)

Cross-cutting response and recovery doctrine applicable to earthquake response.

[FEMA Geospatial Resource Center](#)

FEMA GIS hub for ShakeMap integration and earthquake impact mapping.

FLASH FLOOD / DAM FAILURE

[FEMA Flood Risk — Know Your Risk](#)

FEMA flood risk awareness and mapping resources for communities and emergency managers.

[NWS Flood Safety](#)

National Weather Service flood safety guidance including flash flood warning interpretation.

[USACE Dam Safety Program](#)

US Army Corps of Engineers dam safety program resources and inspection guidance.

[Oroville Dam Incident AAR — CalOES 2017](#)

California OES after-action report on the 2017 Oroville Dam spillway crisis — benchmark dam failure AAR.

[ESF-3 Public Works & Engineering](#)

Federal annex covering infrastructure protection, emergency repair, and debris clearance.

[FEMA Resilience Hub — Flood](#)

Hazard-specific flood resources, tools, and case studies from the FEMA Resilience Hub.

[FEMA Resilience Hub — Response & Recovery](#)

Cross-cutting response and recovery doctrine applicable to flood and dam failure response.

[FEMA Geospatial Resource Center](#)

FEMA GIS hub for flood inundation mapping and dam breach modeling resources.

Scenario References

Clickable links organized by scenario type. The resource title is the link to the validated source.

URBAN WILDFIRE

[USFA Wildland-Urban Interface](#)

USFA resources on WUI fire risk, structure ignition, and community fire adaptation.

[CAL FIRE Fire Protection Programs](#)

CAL FIRE fire protection programs, resources, and operational guidance.

[NIFC Fire Information](#)

National Interagency Fire Center fire information, statistics, and resource coordination.

[Palisades/Eaton Fire After-Action](#)

LA County emergency management — ongoing resource for 2025 Palisades and Eaton fire response lessons.

[ESF-4 Firefighting Annex](#)

Federal annex covering wildland and structural firefighting support and coordination.

[FEMA Resilience Hub — Wildfire](#)

Hazard-specific wildfire resources, tools, and case studies from the FEMA Resilience Hub.

[FEMA Resilience Hub — Response & Recovery](#)

Cross-cutting response and recovery doctrine applicable to urban wildfire response.

[FEMA Geospatial Resource Center](#)

FEMA GIS hub for fire perimeter mapping and evacuation zone resources.

WINTER STORM CASCADE

[FEMA Resilience Hub — Winter Weather](#)

FEMA Resilience Hub hazard-specific page for winter weather, ice storms, and hail.

[NWS Winter Storm Safety](#)

National Weather Service winter storm safety guidance and warning interpretation.

[ESF-12 Energy Annex](#)

Federal annex covering energy system restoration including electric power, gas, and petroleum.

[FEMA Power Outage Incident Annex](#)

FEMA incident annex specifically addressing extended power outage response and coordination.

[FERC February 2021 Freeze Final Report](#)

FERC final report on the February 2021 freeze — key winterization and grid resilience lessons.

[FEMA Resilience Hub — Response & Recovery](#)

Cross-cutting response and recovery doctrine applicable to winter storm cascade response.

[FEMA Geospatial Resource Center](#)

FEMA GIS hub for power outage mapping and storm impact situational awareness.

Scenario References

Clickable links organized by scenario type. The resource title is the link to the validated source.

RADIOLOGICAL DISPERSAL DEVICE

[FEMA Radiological Emergency Preparedness](#)

FEMA hazardous response capabilities page for radiological emergency preparedness and response.

[FEMA RDD Incident Planning Guidance](#)

FEMA planning guidance for responding to and recovering from RDD incidents.

[REAC/TS Medical Response to Radiation](#)

Radiation Emergency Assistance Center/Training Site — medical response protocols and training.

[Nuclear/Radiological Incident Annex \(NRIA\)](#)

Federal annex covering nuclear and radiological incident response coordination and roles.

[FEMA Nuclear Detonation Response — First 72 Hrs](#)

FEMA guidance on nuclear detonation response operations in the critical first 72 hours.

[FEMA Resilience Hub — Response & Recovery](#)

Cross-cutting response and recovery doctrine applicable to radiological incident response.

[FEMA Geospatial Resource Center](#)

FEMA GIS hub for radiological plume modeling and contamination zone mapping.

TRAIN DERAILMENT — MCI / HAZMAT

[DOT Emergency Response Guidebook](#)

DOT/PHMSA ERG — standard field reference for first responders to rail and highway hazmat incidents.

[NTSB East Palestine Final Report 2024](#)

NTSB final investigation report on the 2023 East Palestine derailment — definitive rail hazmat AAR.

[CHEMM START Triage Reference](#)

Chemical Hazards Emergency Medical Management START triage protocol for MCI response.

[ESF-10 Oil & Hazardous Materials](#)

Federal annex covering environmental response and hazmat containment and cleanup coordination.

[LEPC Guidance — EPA](#)

EPA guidance on Local Emergency Planning Committee roles in hazmat community planning.

[FEMA Resilience Hub — Response & Recovery](#)

Cross-cutting response and recovery doctrine applicable to rail MCI and hazmat response.

[FEMA Geospatial Resource Center](#)

FEMA GIS hub for incident mapping and hazmat plume modeling support.
